IMPORTANT PRODUCT RECALL NOTICE

Re: Specified OIL and SESH Vape Products

Date: September 18, 2026

Please stop using the affected products immediately.

REASON FOR RECALL:
Staycon, LLC is recalling the products identified below because they contain a terpene ingredient, a-pinene, which may have detectable levels of methylene chloride. Staycon, LLC has become aware that a batch of botanically derived a-pinene used in the production of certain Staycon, LLC products has tested positive for methylene chloride. The Colorado Marijuana Enforcement Division (MED) has determined that detectable amounts of methylene chloride represent a public health hazard. Therefore, Staycon, LLC is recalling the products listed below while this suspected health hazard is investigated.

CHECK YOUR PRODUCT:
Check your packaging for the brand, product size, and names listed below. This recall applies to the products listed below purchased between September 18th, 2025, and September 18, 2026.
